Plexiglas® ROHS Information

Restriction of Hazardous Substances (RoHS) RoHS is defined in Directive 2002/95/EC which concerns restrictions on the use of certain hazardous substances in electric and electronic equipment. RoHS specifically restricts the concentration of the following materials in electric and electronic equipment: lead, mercury, hexavalent chromium, polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE), other polybrominated compounds present in the product to a level equal to or less than 0.1% by weight. It further restricts the concentration of cadmium present in the product to a level equal to or less than 0.01% by weight.
